

Think those shiny G40 studs won't rust?
Think again.
See the **InterCoat™ ChemGuard** difference.

Accelerated Corrosion Testing*

Typical NS G40
Galvanized
drywall stud

120 Hours

InterCoat™
ChemGuard Stud

168 Hours

*Accelerated corrosion testing performed by independent certified laboratory conforming to ASTM B-117 testing standard

"Shiny"
is only
skin
deep!

Attention Contractors! Enter a sample of your current non-structural stud into the InterCoat™ ChemGuard Corrosion Performance Challenge for a chance to win up to \$1,000!*
