

*InterCoat™ ChemGuard's
Self-Healing*

InterReactive™ Coating Technology

Scratched Panel Before & After
100 Hours in ASTM B117 Salt Spray

All EQ Coatings are **NOT Created Equally**

Unlike our competitors, Eco-Green Coatings' InterReactive™ Coating Technology provides you with coatings that are built for your environment. Whether it's the rigors of manufacturing or the rough, gravel filled lot at your next build site, our customers can take comfort in knowing they have a product that will perform beyond expectations, time and time again. Our Self-Healing Technology provides you the corrosion protection you've come to expect from our line of InterCoat™ ChemGuard products, even when scratched or scribed.
